

Making the FPDS what it should be.

Rummaging through publicly available government contracting data is not the same as being able to quickly navigate, digest, and work through it. DACIS FPDS Pro transforms complex federal procurement data into a competitive edge by simplifying access to detailed data on contract awards, spending patterns, industry trends, and key players. The result is helping businesses understand their markets and stay one step ahead of competition.

WHAT

- Visually-driven guided search
- Context-specific reporting
- Encapsulated contract overviews and runtimes
- 70+ distinct searchable data points
- Fully exportable insights and data views
- Benchmark your competition
- Collaborate across your organization
- Discover customer spending tendencies
- Analyze and know market industries
- Isolate and profile performers
