- Companies from across 70 nations
- 500,000 U.S. contractors
- Merger acquisition news and analysis
- Primes, subs, and teaming arrangements
- Drill-down rankings and line-item constructs
- Configurable alerts
- Record sharing
- Consolidated overviews
- Interactive allocation charts
- Report generation

How DACIS helps

- Near real-time insight so you can act on contract funding
- Enables all users, not just data experts, to gain decisive perspectives
- Isolates and quantifies competitor pipelines, breakdown recompetes

Find opportunities.
Identify partners.
Outmaneuver competitors.

Market intelligence clarity as you've always wanted.

Clarity. Not something typically associated with pouring over millions of data records across countless sources trying to find and make sense of specific markets within the vast ocean of aerospace, defense, and technology business. And yet, this is what DACIS delivers each day to thousands of industry professionals like you to fuel their business engines.

From its continuous, thorough collection of government data, breaking news, and corporate information, DACIS makes it all interpretable and blends in powerful analytical tools and insights from expert analysts to create a fully integrated, easy-to-navigate system you can trust.

Integration unlocks the information you want.

Programs, companies, contracts, cost centers, customers, and all associated data is just part of DACIS. Inside DACIS is a breadth of capability and seamless integration which makes being competitive intuitive and decisive.

Fueled by search, powered by integration, DACIS drives deep insights to make you more competitive - faster.

DACIS Professional

DACIS Professional Edition provides comprehensive coverage of the worldwide defense, aerospace, and government marketplace. Six seamlessly integrated modules deliver the market intelligence required for your business development and strategic planning processes:

-  **Newswire** Breaking defense and aerospace industry news and information. Integrated with all modules, Newswire provides context and background that others can't.
-  **Companies** Business unit-specific data such as structure, subsidiaries, JVs, and equity interests on thousands of companies and 500,000+ government contractors.
-  **Programs** Information on the requirements and scope of thousands of major programs with links to suppliers, contract obligations to date, and more.
-  **Contracts** Contracts information beyond government databases offering details of work performed, subcontractor involvement, and even losing bidders.
-  **Customers** Information about government agencies, first-tier prime contractors, and commercial entities that buy defense and aerospace products and services.
-  **Opps** Contract Opportunities service that delivers the industry's largest source of new business leads, plus Profiles, Alerts, and DACIS integration.

If your business needs more than just information, then DACIS is the market intelligence you need.

Extending the Power.

DoD Budget
