**DSCA Notifies Congress of Possible \$313.4 Million Sale of MQ-9Bs to Canada**

Fri., Sep 15, 2023 | WASHINGTON, D.C.

The State Department has made a determination approving a possible Foreign Military Sale to the Government of Canada of munitions and other systems to be integrated into MQ-9Bs for an estimated cost of \$313.4 million. The Defense Security Cooperation Agency delivered the required certification notifying Congress of this possible sale today.

The Government of Canada has requested to buy munitions and other systems to be integrated into MQ-9Bs purchased through Direct Commercial Sales, to include:

- Twelve (12) AN/APY-8 Lynx Synthetic Aperture radars
- Two hundred nineteen (219) AGM-114R2 Hellfire II missiles
- Eighteen (18) KMU-572 tail kits for the GBU-38 Joint Direct-Attack Munition (JDAM) and GBU-54 Laser JDAM (LJDAM)
- Twelve (12) Mk82 500-lb General Purpose (GP) bombs
- Six (6) Mk82 Filled Inert bombs

Also included are:

- Due Regard Radars
- SAGE 750 and SNC 4500 Electronic Surveillance Measures Systems
- AN/ARC-210 radios
- Compact Multi-Band Data Link (CMDL)
- KY-100M Narrowband/Wideband Terminals
- KOR-24A Small Tactical Terminals
- High-Bandwidth Compact Telemetry Modules (HCTM)
- KIV-77 cryptographic appliques and other Identification Friend or Foe (IFF) equipment
- AN/PYQ-10C Simple Key Loaders (SKL)
- Common Munitions Built-In-Test/Reprogramming Equipment (CMBRE)
- FMU-139 Joint Programmable Fuses (JPF)
- M299 Hellfire launchers and training missiles
- DSU-38 Precision Laser Guidance Sets
- Classified publications and technical documentation
- Munitions support and support equipment
- Secure communications, precision navigation, and cryptographic equipment
- Spare and repair parts, consumables, accessories, and repair and return support
- Unclassified software delivery and support
- Testing and integration support and equipment
- Maps and charts
- Personnel training and training equipment
- Transportation support
- Warranties
- Studies and surveys
- Contractor Logistics Support (CLS)
- U.S. Government and contractor engineering, technical, and logistics support services
- Other related elements of logistics and program support

The estimated total cost is \$313.4 million.

This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the military capability of Canada, a NATO ally that is an important force for ensuring political stability and economic growth, and a contributor to military, peacekeeping and humanitarian operations around the world.

The proposed sale will improve Canada's capability to meet current and future threats by enabling unmanned surveillance and reconnaissance patrols of its northern arctic territories. It will also enable Canada to optimally fulfill its North American Aerospace Defense (NORAD) and NATO missions while increasing interoperability with U.S. and NATO forces. Canada will have no difficulty absorbing these articles and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be General Atomics Aeronautical Systems, Poway, CA. The purchaser typically requests offsets. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Canada.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

The description and dollar value are for the highest estimated quantity and dollar value based on initial requirements. Actual dollar value will be lower depending on final requirements, budget authority, and signed sales agreement(s), if and when concluded.

Transmittal No: 23-72
